Description

Skyward Mobile Access provides intuitive access for students, parents, and school staff that currently use Skyward's Family Access, Student Access, Educator Access, or Employee Access. Skyward Mobile Access will automatically locate your district and take you instantly to your vital information such as grades, attendance, discipline, payroll, time off, and more! Please contact appsupport@skyward.com with questions, comments or concerns about the app.

Note: Your school district must activate Skyward Mobile Access Automatic Setup in order for this application to locate your school district and connect to it.

Visit Developer's Website · Email Developer

App Screenshots

Skyward recommends using Find By Current Location/GPS. Only districts that have opted in will display. You will then select your school district and log in with your credentials. The first time you log in you will be prompted to set up a 4 digit PIN for extra security. Your selection will be retained for the next session.

Note: If you are unable to connect, please try the following before contacting Skyward IT:

- Restart the USI or CAS
- Verify in Monolith that the database is connected to SkyConnect on the database setup screen
- Make sure your district has port 2503 open to SkyConnect.skyward.com

Once logged in, you will be able to access information on:

- **Educator Access Plus** – Take Attendance and Enter Discipline Referrals
- **Employee Access** – True Time, Quick Entry, My Time Off, Pay History and Expense Reimbursement
- **Financial Management** – Account Management and Accounts Payable
- **My Print Queue**
- **Product Setup** – Secured Users and Task Manager
- **Student Management** – Student Information for Activities, Attendance, Calendar, Discipline, Emergency Contacts, Family, Gradebook, Missing Assignments, Schedule and
